Initial Information Need
Comprehensive or Specific?

I know/need Subject, Author,
Publications (types) etc.

**How do I use what I have to refine
or broaden my search?**

What's out there?

TOOLS

Current awareness tools deliver alerts to your email based on subject keywords or journal titles. They are available from **CCC, Ingenta,** and **individual journals/publishers**. Also, listserves and web portals can provide similar information.

TOOLS
Find **Articles** using author, keywords in article title/abstract etc. in **ASFA, MGA, FirstSearch, Web of Science, CCC, Ingenta, and Dialog.** Find **Books** using author, keywords in title subject in **WorldCat, other library catalogs.** For **Reports, Proceedings, gray literature** use a combination.

How do I find more and stay current?

Where can I get this material?

TOOLS

ProCite, EndNote, Reference Manager work with all databases given the appropriate filters. (This software is licensed and downloadable to all NOAA users.)   Download at: http://www.nites.noaa.gov/bpa/display.asp?bpaID=6

TOOLS
Find **Articles** using journal title and volume/year using **NOAA Seattle Serials database, library catalogs, WorldCat, ILL.** Find **Books** using author, title, and subject in **WorldCat, other library catalogs, ILL.** For **Reports, Proceedings, gray literature,** use a combination.

How do I keep track of what I read/cite?
